Print Orders

Please read the details below before you make your order.

The Order table on page 2 shows the print sizes on offer.

*There are 5 print sizes shown. Three of the sizes are shown in **Red***

*All the images shown on the web pages are captured, edited and produced at **12x8**.*

*Therefore to reproduce images to appear exactly as they do on your computer the print size must be equal or proportionate to **12x8** – e.g print sizes of - **6x4 3x2 24 x 16** will print as larger or smaller versions of the images you see on the web.*

*Other sizes [**in Red**] will involve editing the original image.*

This editing will produce 1 of 2 results

Cropping/cutting- *for an 8x10 print an 8x12 original will lose 1 inch from either end, As far as possible when shooting the pictures I allow for this and leave some space at the edges but **Larger** groups necessarily fill a 12x8 frame and any crop will result [possibly] in Aunt Edna being cut off the end, not ideal? Especially if you're Aunt Edna!*

Resizing/shrinking *Alternatively the image can be shrunk to fit the desired print size but this will result in a white/empty space appearing on your finished print. This is a better solution because nothing is lost but if you have purchased an 8x10 frame or mount your finished picture will be displayed with the white space on show.*

I have attempted to avoid being too techie but it is necessary to understand exactly what you are ordering before putting pen to cheque book.

*If you order prints in **The RED** sizes please indicate in the box provided your preferred option ie Crop or Shrink to fit.*
